

CropKarb®

Low Rates - High Response

FOLIAR NUTRIENT COMBO

GUARANTEED ANALYSIS 8-0-18

Total Nitrogen (N)	8.00%
8.00% Urea Nitrogen	
Soluble Potash (K ₂ O)	18.00%
Boron (B)	0.375%

Derived from Urea, Boric Acid & Potassium Carbonate
Weight per gallon: 11.04 lb at 68° F
Grams per liter: 1325 g at 20° C

GENERAL INFORMATION:

CropKarb is a formulation of nutrients and **DeltAg**'s proprietary chemistry. It is designed to improve bloom retention, fruit and seed sizing and bulking. **CropKarb** may be applied on all field, row, vegetable, fruit, tree, vine, ornamental, turf, hay and pasture crops.

APPLICATION RATES:

Foliar: 32 Oz/acre. Apply during heavy blooming, sizing or bulking weekly as needed.

In-Furrow: Not Recommended.

Drip Irrigation: 0.50 Oz/1,000 sq ft weekly.

Injection (1:100): 4 Oz/gal on weekly (312 ppm).

Pump-Up Sprayer: 4 Oz/gallon of water.
Spray light mist over foliage from 3 feet away. Apply weekly as needed.

CAUTION: This product contains boron in amounts which could be excessive for some crops. Contact your local agricultural authority for more information on specific crops.

COMPATIBILITY: This product is compatible with most commonly used pesticides. However, it is advisable to always check for compatibility.

NOTE: Always follow label directions and precautionary statements on pesticide label.

*For More Information Please Contact **DeltAg**.

CropKarb®

JUST THE RIGHT NUTRIENT COMBO

CropKarb at 32 ounces per acre REPLACES a 44 ounce Tank Mix of 3 **DeltAg** products that were used for years on many Mid to Late Season crops. **DeltAg CropKarb** has been formulated and thoroughly field tested since 2002 with great success.

CropKarb is formulated, not blended, and is designed to be applied at a low application rate as it compares to other nutrient sources. **CropKarb** supplements plants with much needed nutrients to hold younger fruit while sizing and bulking older fruit during heavy fruiting stages of crop development.

Formulated, Not Blended

CROPKARB RATE

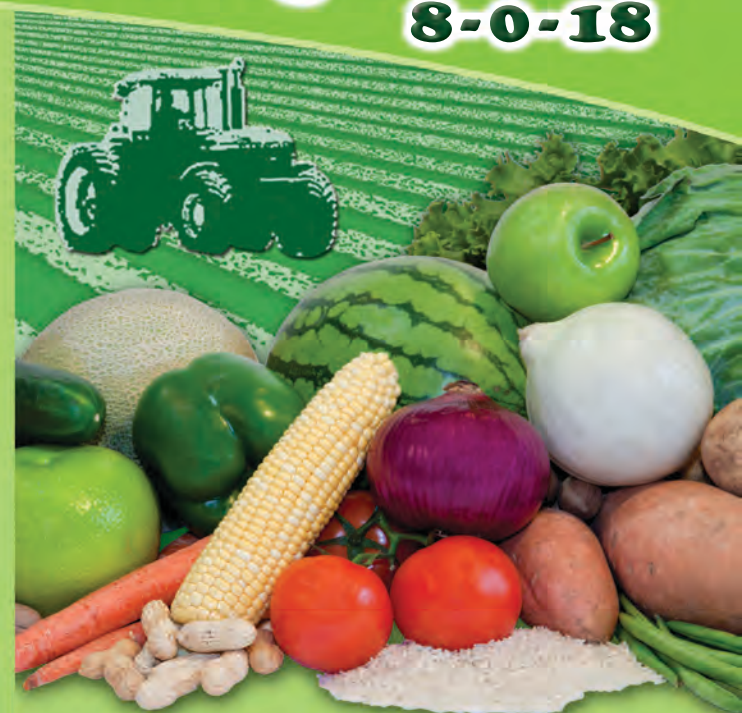

Foliar Application: Broadcast: Apply 32 ounces per acre during heavy blooming, sizing or bulking.
NOTE: Multiple applications should be 7 to 10 days apart. Often applied with fungicide.

Chemistry... Not Fertilizer!

CropKarb utilizes **DeltAg's** proprietary **BioTransport System**, which improves absorption and translocation of materials throughout the plant while acting as an aid to improving nutrient efficiency. The "Plus" indicates the presence of **DeltAg's BioTransport System**. **CropKarb** has the ability to perform adequately at very low application rates as compared to other products.

BioTransport System

Why CropKarb?

This formula is designed to help crops to better retain young fruit while working to finish older, more mature fruit.

CropKarb @ 32 Oz/acre delivers:

Potassium Plus @ 28 Oz - To Help Size Fruit

PercPlus @ 16 Oz BTS equivalent - To Aid Root Activity

Boron Plus @ 3.2 Oz - To Help Retain More Young Fruit

A Great Combo from DeltAg

When to Apply CropKarb:

CropKarb should be applied during heavy fruiting and/or sizing of the oldest fruit on the plant.

Typical Timing Examples:

Soybeans: R3 to R5

Corn: Initial Tasseling to Earleaf

Wheat: Boot to Initial Heading

Cotton: 4th to 6th Week of Bloom - Apply Twice
