

PEANUT RESEARCH

Influence of Foliar Fertilizers and Inoculants on Yield and Grade

UNIVERSITY OF FLORIDA

WFREC, Jay, FL

Variety: FL-07

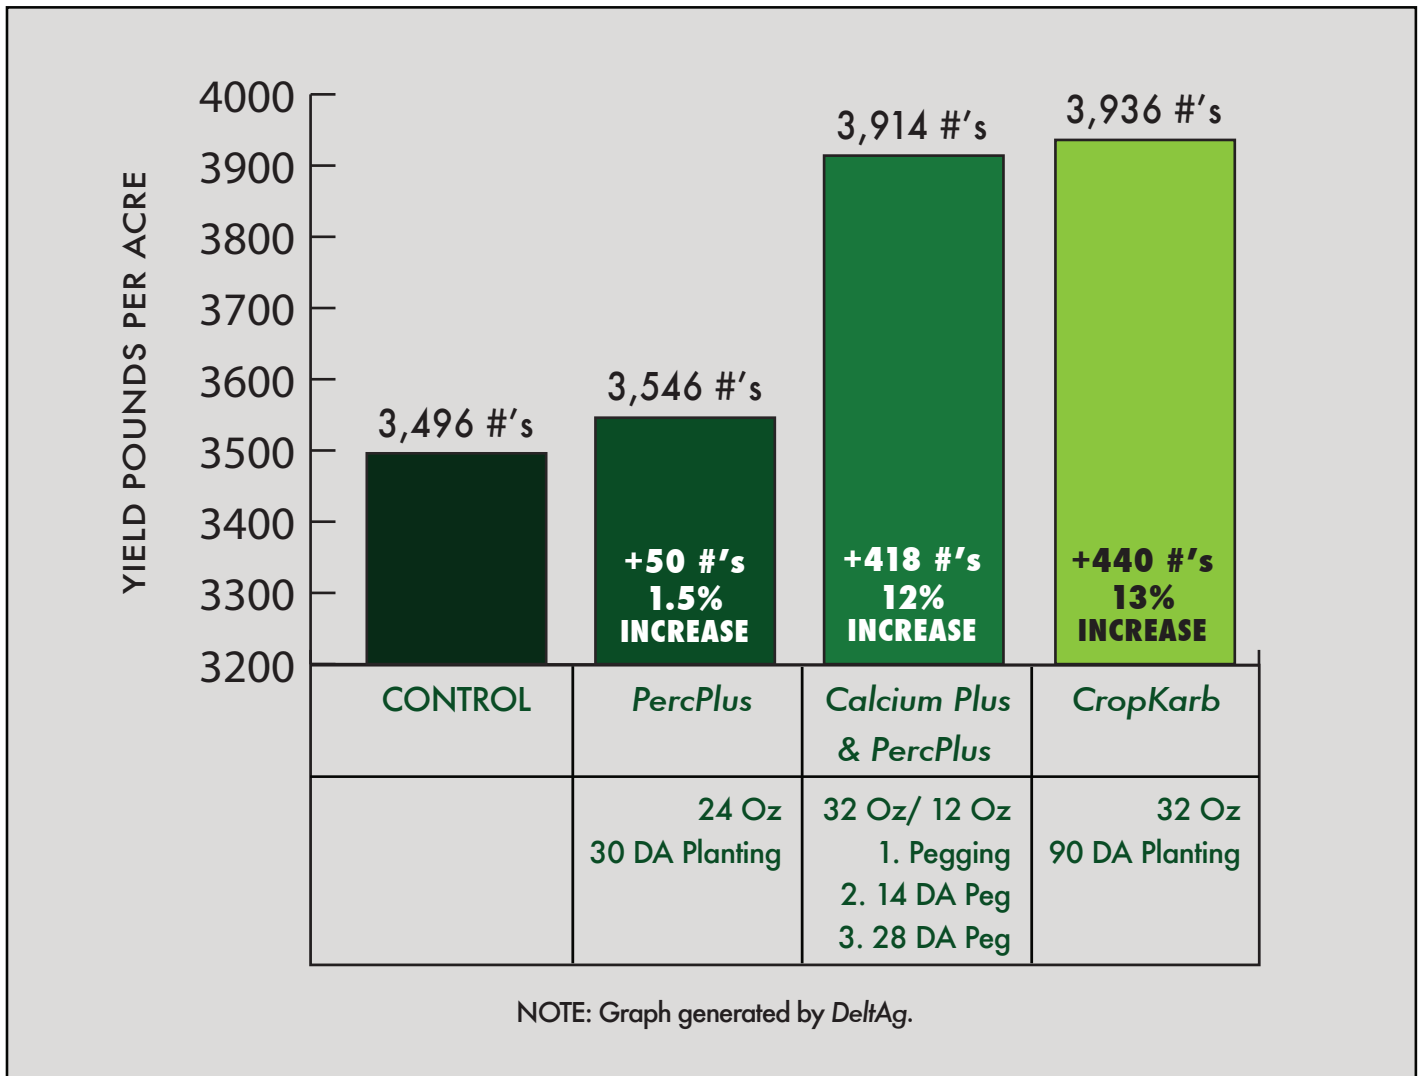

Planted: May 6, 2010

Emergence: May 14, 2010

Data Complied by: Barry J. Brecke

University of Florida

Study Design: Randomized Complete Block

Disclaimer: Information presented here reflects one year of data only and is not intended to be a guarantee of results.

Weather and other conditions will vary from year to year and will have a direct influence on results. These studies with adjustments in treatment options will be repeated over several years of varying weather patterns to determine the consistency of results and expectations. *DeltAg Formulations*
