

soil solution 2015

TREATMENT: Cross County, Arkansas
32 Oz Soil Solution applied preplant in standing wheat stubble
with glyphosate and Valor herbicide.

Applied: June 13, 2015

Photo Taken: September 8, 2015

Todd Sisk:

“The soft and rotting wheat stubble in the treated area allows for a cleaner and more efficient soybean harvest and will typically reduce our fall tillage needs by at least one trip.”
